# YOU MAY BE SURPRISED AT HOW MUCH YOU CAN SAVE ON YOUR LIGHTING

A better visual environment will make workers more productive, reduce errors and eye strain, and increase safety.

For 100,000 sq-ft expect savings of approximately \$27,500 on electricity and maintenance per year (259 iMEK™ lights)

For 150,000 sq-ft expect savings of approximately \$41,000 on electricity and maintenance per year (375 iMEK™ lights)

Gain an advantage over your competition and increase the marketability of your facility.

Improve how you appear to your customers by adopting an environmentally friendly choice.

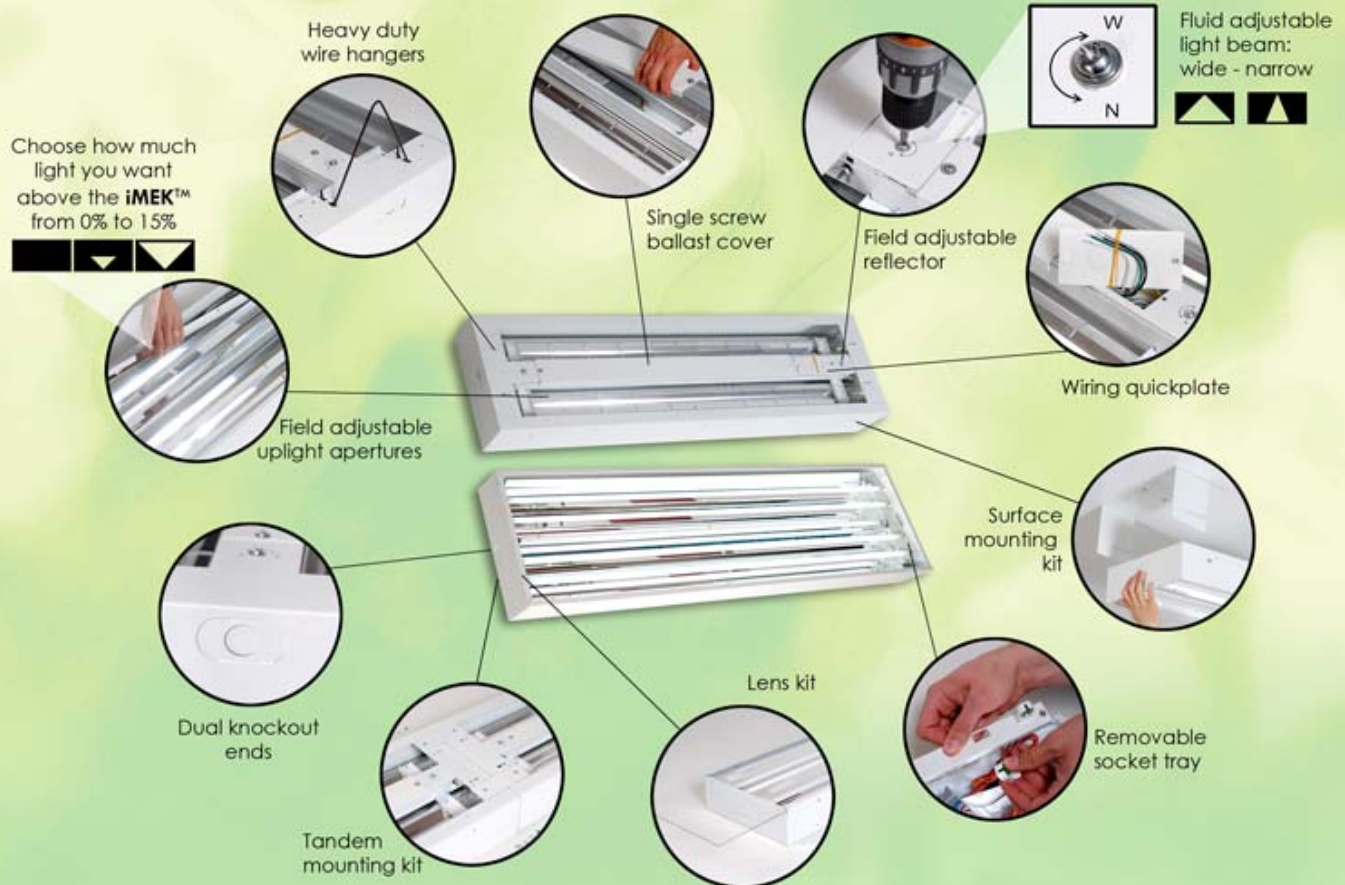

For 200,000 sq-ft expect savings of approximately \$55,000 on electricity and maintenance per year (500 iMEK™ lights)

# FEATURES and BENEFITS of the iMEK™

Patent Pending

-  **Field Adjustable Reflector:** Fluid adjustment from narrow to wide beam patterns
  -  **Single Screw Ballast Cover:** Allows for quick and easy ballast maintenance
  -  **Robust 18 Gauge Welded Construction:** Built to take abuse and maintain performance
  -  **Wiring Quickplate:** Makes for a contractor friendly quick installation
  -  **Post Painted Powdercoat:** Highest quality finish provides cutting edge without the "cutting edge"
  -  **Field Adjustable Apertures:** Every iMEK offers your choice of direct downlight only or combinations of downlight with adjustable uplight
  -  **Removable Socket Tray:** Allows for quick and easy socket maintenance
  -  **Dual Knockout Ends:** 7/8" knockout available for occupancy sensor or conduit entry; large knockout available for tandem mounting
  -  **Heavy Duty Wire Hangers:** Included with every fixture for your convenience
  -  **Surface Mounting Kit:** Makes surface mounting a one man job
  -  **Wireguard/Louver/Lens Kit:** Easily add protection or an aesthetic treatment to suit your application
  -  **Tandem Mounting Kit:** Connect two or more iMEK fixtures together
- + Reflector plastic coating removed at factory prior to shipping and fixture bagged for cleanliness**
